Public Works & Facilities Minutes

April 8, 2019 8:30 AM

The Public Works and Facilities Committee met at the above date and time in the Conference Room of the Administration Office on the second floor of the County Building. 1504 Third Avenue, Rock Island, Illinois. Chairman Larry Burns called the meeting to order at 8:30 am. Minutes as follows:

1. Call to order and roll call:
Members present: L. Burns, E. Langdon, E. Sowards, J. Deppe, D. Adams, B. Westpfahl
Members absent: B. Regan, R. Morthland
Others Present: G. Thorpe, J. Massa, J. Snider, R. Brunk, B. Long

2. Public Comment –None at this time

3. Approval of minutes from the March 11, 2019 meeting
Motion: E. Langdon
2nd: D. Adams
Voice Vote
Motion carried

4. Reports to committee
Zoning and Building
G. Thorpe: This month we had 73 total receipts, net revenue just over \$17,000. Just under 1.7 million value for month. Compared to last year, down in activity up in money. YTD still way down in activity. Fees are similar because there is a fee in lieu that’s not actually revenue of \$34000. Evaluations down quite a bit. Residences; we had 4 this month, are catching up. Per township. 3 in bowling one in Andalusia. That’s our 4 for the year. Other than that, Mississippi river is up, paying attention to flooding, working on a grant with the land use planning committee to start that process.

Motion: B. Westpfahl
2nd D. Adams
Voice Vote
Motion carried

GIS
J. Boudi: First item, we’re almost done with land use updates farm land. Assessments, 2nd item; NG911 (next generation 911) the state has drafted new requirements, mandates that must be met for all 911 dispatching centers. Milan QCOM; every county has to consolidate to three dispatcher centers. We used to have five. Milan, Moline, E. Moline and Silvis are at Milan. Rock

Island still has their own. So it's County, City and everyone else is at Milan Municipal building. We're working on building the new GIS layers to meet requirements set by the state.

Third item: 2020 census coming up fast. We began work on that. I'll have a lot more information as the year goes on as far as timeline, meetings and so forth. Last item, \$15,350 recorder fee revenue for the month of March. Hopefully will see that continue to rise. I don't know if I mentioned. Part of the deal I have with Rockford map publishers who does the Farm Bureaus plat books. I get digital copies and I can print as many as I want for internal use. If anyone wants one, email or call and we can print them. They have all parcel boundaries, 3 or 5 acres or more and owner name and the next page is the aerial photography, which is another reason it's important we update aerial photography as frequently as possible.

J. Deppe: Consolidation of the 911. Is that going to lower taxes? What's the thinking?

J. Boudi: Trying to streamline operations.

J. Deppe: More than likely lowering their not going to need staff. Is it going to help the County?

J. Boudi: That's part of the goal. I'm not sure yet. I know the infrastructure to consolidate was Costly, but I'll find out from the 911 board.

Motion J. Deppe

2nd E. Sowards

Voice Vote

Motion Carried

Highway

J. Massa: I had a complaint on the mud on Knoxville road. I met with the landfill manager, looked at the operation. One problem he mentioned, the cell they are filling is close to Knoxville road. They don't have the travel distance so they've been having the trucks come around. We're going to keep an eye on it. It'll be another year before they cap this cell but that doesn't mean can have a mess until then. We're keeping up on it. They're aware. If anyone remembers, Linda Zoboda owns property on New Boston Blacktop, almost in Mercer county. There's a structure on our road fills in with sand. We go out once or twice a year and clean our culvert out. It goes to the drainage ditch which goes to the Mississippi River and nothing drains. Linda wrote a letter to Cheri Bustos office trying to get it taken care of. We found in 1947, when they build the county line road, the County built a structure to retain the sand, work in the 70s. We're going to try to do something. We're working with the soil and water conservation, drainage district. What we can do to make things less burdensome. The sand comes up from the hill. Jim asked us with zoning to look at north and east side of this building. Jeff mentioned this week is work zone safety awareness week and on Friday they'll have a display at the Hampton rest area from 10 am to 1pm will have display from different agencies. The association I report to is the association IL County of engineers. Capital improvement plant. We talked with Jim, Richard and Larry and Mike Halpin about getting transportation funds local agencies. The County and the townships is who we represent. We go back and show what kind of revenue for motor fuel tax, how much it costs to do construction and compare to more recent. Cost of material has gone up and revenue down. We're showing that ratio. We have a motor fuel tax distribution. That's how money is filtered down when we receive motor fuel tax. We are asking goes through funding distribution formula. Everyone seems to get their fair share of the money. We've been meeting

with representatives. One last thing, We'll probably do a bid for roof repairs on our old building; Hoping by next month we'll have bids for that.

E. Langdon: The main office?

J. Massa: No, It's an old corrugated roof. Last time any work was done was 2000 or 2001

L. Burns: When are you planning on having that done?

J. Massa: We have budget this year to do it.

J. Deppe: Last year 18 people were killed in construction zones. 10 were on interstates, 6 on state highways and 2 were on city streets, In the last month we've had 3 state troopers die. 18 squad cars hit since January 1 of this year. This week national highway safety. This Friday from 10-1 at Hampton rest stop, we'll be handing out coloring books, keychain and explaining when you're in a construction zone, you don't need to be on your phone. Go Hands free; when you see cones, no phones. Scott's Law is about if you see a vehicle get in other lane. Stop speeding through construction zones. In the last five years, cell phone texting spiked 57% in construction zones so it's a concern for workers and police. The state will have a truck out there, and the sheriff's going to have a car.

Motion to approve: B. Westpfahl

2nd E. Langdon

Voice vote

Motion carried

County Building

J Snider: I can report that the new security entrance is working seamlessly. It's a good process to have we have to have to provide safety for residents and employees. The sheriff has done a great job.

We're making great progress on the cost benefit analysis for Hope Creek. MPA has on site putting things together. We'll have a full report and cost benefit next month's Committee meetings.

B. Westpfahl: Where are we at on the courthouse?

J. Snider: The appellate court issued a stay. They're willing to review the case but petitioners have to come out with \$370,000 as a bond and they indicated that they're going to come up with that money and that deadline in the next day or so. If they provide the docket.

B. Westpfahl: It doesn't look like they did anything different; couldn't use those doors.

J. Snider; The balcony that was outside the door had flooring to it. Why they didn't reopen that entrance, I don't know. Now we have a process if someone needs handicap they can go down through the other entrance and wand them in. It's not a perfect process. Front entrance really isn't handicap accessible; we believe it is. If it's not someone proves otherwise then we need to address it.

E. Langdon: They did some repairs too.

Motion: B. Westpfahl

2nd: J. Deppe

Voice Vote
Motion carried

5. Proclamation for Building Safety Month

G. Thorpe: We've done this for the last few years. The national code council is the council that drafts the building codes used. May's push nationally building safety month. They have four different weeks' focuses on different topics. Ask County Board to support that and recognize May as building safety month.

Motion to approve: J. Deppe
2nd: E. Sowards
Voice vote
Motion carried

6. Consider Highway Item

a. Renewal of cable agreement with Reynolds Cable Inc.

J. Massa: This is to remove an expired cable television franchise for Reynolds cable. It expires in July of this year. It's the exact same agreement. State's attorney make sure all the statutes are consistent. Renew their agreement.

J. Deppe: The old agreement was it at 5 percent; should we be looking at inflation over time? Or is it not that kind of a money thing?

J. Massa: No it's not. It might be in statute how much you can put in. I can double check

R. Brunk: You said it's the same agreement, language. Is there anything different term?

J. Massa: No, again its 15 years. There is no time limit but for cable there are different statutes.

R. Brunk: How long has legal had this?

J. Massa: I gave it to them last week. The language has not changed and so if they'd just review the codes haven't changed. I doubt they have, but they're going to review for us.

Motion to approve: B. Westpfahl
2nd: E. Langdon
Voice vote
Motion carried

7. Committee member opportunity for brief comment (*no decisions will be made*)

B. Westpfahl: To back up what John said about the landfill. There was a little dust on the road but we could see where it swept. Every time it rains, there's going to be a problem.

J. Massa: The longer distance they travel before they get out of the landfill helps keep mud off the tires.

8. Adjourn

Meeting adjourned at 8:54 am by J. Deppe. 2nd: D. Adams

**PUBLIC WORKS COMMITTEE MEETING
HIGHWAY DEPARTMENT
MONDAY
MAY 13, 2019
COUNTY BUILDING
8:30 AM
A G E N D A**

1. Review bids received on Friday, May 03, 2019.
This was a bid for a roof restoration project at the Milan yard. Only one bid was received and it was well above the estimate. I recommend to not award the low bid. The Highway Department will prepare a roof restoration proposal with revised specifications and rebid the project.
2. Permission to close Loud Thunder Road (CH 59) for the Du-State-Du Event
This is an annual request from the Cornbelt Running Club. The request is to close Loud Thunder Road (CH 59) for a run/bike/run duathlon on Sunday, August 18, 2019 from 7:00 AM to 10:00 AM. The Cornbelt Running Club will contact the County Sheriff's office for traffic control during the event. All outside road closures of this nature must be approved by the County Board.
3. Review and award quotes for the purchase of Drainage Culverts.
4. Review and award quotes for work on the Underground Storage Tanks at the Milan facility.

SPECIAL USE PERMIT

Case: SU-19-209

Re: LEE & JENNIFER GARLACH

The Rock Island County Zoning Board of Appeals will hold a public hearing at the request of LEE & JENNIFER GARLACH (petitioners) on behalf of ROGER & DEBORAH SCHONE (owners) to consider a Special Use Permit for the operation of a Public Stable, in an AG-2, General Agricultural District, as authorized in Section 3-2-11.3.P of the Rock Island County Code of Ordinances on the following described property:

Address: 15711 13th St. Milan, IL 61264

Legal Description: P/O parcel 317-A, PIN 2324400003, SA Lot 403, Sheet 30 supplemental for 2007, Section 24, T16N R2W, 4TH PM, Bowling Township, Rock Island County, Illinois, containing approximately 11.0 acres.

WHEREAS, the Zoning Board of Appeals met on Wednesday May 1, 2019, at the Rock Island County Office Building, 1504 Third Ave., Rock Island, IL and voted to recommend to the Rock Island County Board that the Special Use Permit request be granted with conditions. There was one objector present. Mr. Coyne recused himself from this case for a conflict. A motion to approve the request was made by Mr. Van Daele and seconded by Mr. Boyd. The vote to approve was as follows: Chairman Fuhr – Yes; Mr. Brown – Yes; Mr. Boyd – Yes; and Mr. Van Daele – Yes. Motion carried.

The following findings of fact are based upon the evidence, documentation and testimony presented in open meeting at the Public Hearing:

Standards:

1. That the establishment, maintenance, or operation of the Special Use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare. The applicant will operate the facility within parameters, which have proven to be successful during the past operation of the facility.
2. That the Special Use will not be injurious to the use and enjoyment of other property in the immediate vicinity for the purpose already permitted, nor substantially diminish and impair property values within the neighborhood, and will be located and operated to minimize incompatibility with the character of the surrounding area and to minimize the effect on the value of the surrounding property. The applicant need not demonstrate complete compatibility, but the applicant shall demonstrate reasonable efforts to minimize incompatibility. The five SE-1, Suburban Estates Low Density, large lot residential neighbors to the West of the property have thus far co-existed with the operation of this facility under its current ownership. Efforts should be made to limit the sources of foul odors to the portions of the parcel farthest from the neighbors when possible.
3. That the establishment of the Special Use will not impede the normal and orderly development and improvement of the surrounding property for uses permitted in the districts. Properties that lie west of the subject parcel are Medium Density in the RICO Land Use Plan. One to five acre large lot medium density residential lots have continued to be developed along the Western side of 13th St. South of the subject parcel to 176th Ave.

4. That adequate utilities, access roads, drainage and/or other necessary facilities have been or are being provided. All the land drains to the East, towards the most open portions of the property. Adequate interior lanes for vehicular traffic within the facility exist.

5. That adequate measures have been or will be taken to provide ingress and egress so designed as to minimize traffic congestion in the public streets. There are two existing points of access/egress off 13th, therefore an exit only & an entry only, path could be established when large events at the facility dictate this be done for traffic safety.

6. That the plan of operations for the Special Use is designed to minimize the danger to the surrounding area from fire or other operational accidents. Equestrian events programmed for the facility are low risk for fire hazards.

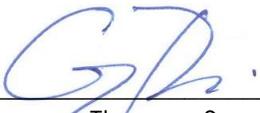

7. That the Special Use shall, in all other respects, conform to the applicable regulations of the district in which it is located, except as such regulations may, in each instance, be modified by the County Board. The subject parcel is zoned AG-2, General Agricultural District, and therefore the equestrian uses are consistent with the zoning designation.

Conditions for Approval:

1. Fences shall be maintained to assure that horses being boarded on the property will not cause damage to surrounding properties.
2. Adequate off-street parking shall be provided and maintained.
3. The maximum number of horses boarded on the property at any given time is 149.
4. Boarders shall have 24/7 access to the facility. Reasonable accommodation shall be afforded neighborhood residents when accessing the facility after sun down.
5. Equine events, (horse shows), will be held periodically on a semi-regular basis, mostly on week-ends. Event hours of operation will be limited to 7:00 a.m. to 10:00 p.m. Quiet hours shall be observed after 10:00 p.m. and all guest shall leave the premise by 11:00 p.m.
6. Restroom facilities shall be provided for all visitors to the facility. The design, installation and maintenance of all sanitary facilities shall be approved.
7. Manure management will follow State of Illinois Department of Agriculture regulations.
8. The facility shall operate within all state and local health and safety guidelines to which all such facilities are subject.
9. Similar signage will be allowed to existing signs
10. There shall be a caretaker, operator or operator's agent on the premises and capable of exercising authority and control of all activities carried on thereon. The operator's agent(s) shall reside on premise in housing provided at the facility.
11. Adequate containers shall be provided for disposal of garbage and refuse.
12. Prior to any construction, plans shall be submitted, approved and a building permit issued.
13. All County entities reserve the right to perform inspections of the facilities at any time they deem necessary.

14. Changes to the scope of operation of this facility or ownership shall require another hearing before this Board.
15. An annual inspection of the property will be conducted and an annual renewal fee shall be paid to continue the use.
16. This Special Use Permit is non-transferable and shall expire if not renewed annually.
17. If a dispute should arise concerning the interpretation herein, a hearing shall be scheduled before the Zoning Board of Appeals and they shall make the final interpretation.

NOW, THEREFORE, BE IT RESOLVED by the Rock Island County Board that Special Use Permit for the operation of a Public Stable, in an AG-2, General Agricultural District with the above conditions, for the property herein described be and the same is approved.

By: 

Gregory Thorpe; Secretary
Rock Island County Zoning Board of Appeals

ADOPTED THIS 21st DAY OF MAY 2019 BY THE ROCK ISLAND COUNTY BOARD.

Richard H. Brunk, County Board Chairman

ATTEST:

Karen Kinney, County Clerk

REQUEST FOR REZONING

Case: RZ-19-102

Re: KATHLEEN M. BOST TRUST

The Rock Island County Zoning Board of Appeals held a public hearing at the request of the KATHLEEN M. BOST TRUST (owner) to consider a rezoning from AG-2, General Agricultural District to an SE-2, Suburban Estates Medium Density District on the following described property:

Address: 12006 35th St. W., Milan, IL 61264

Legal Description: P/O Tax Parcel 137, SA Lot 104, PIN 2309100005, Sheet 15, supplemental for 2014, Section 9 T16N R2W 4th PM, Bowling Township, Rock Island County, Illinois containing approximately 2.0 acres.

WHEREAS, the Zoning Board of Appeals met on Wednesday, May 1, 2019, 2019 at the Rock Island County Office Building, 1504 - Third Avenue, Rock Island, IL and voted to recommend to the Rock Island County Board that the request be approved. A motion was made by Mr. Brown and seconded by Mr. Coyne to approve the request. The vote was as follows: Chairman Fuhr – Yes; Mr. Boyd – Yes; Mr. VanDaele – Yes; Mr. Coyne – Yes and Mr. Brown – Yes. Motion carried.

The following findings of fact are based upon the evidence, documentation and testimony presented in open meeting at the Public Hearing:

1. The existing use of property within the general area of the property in question is rural residential and agricultural.
2. The zoning classification within the general area of the property in question is AG-2, General Agricultural District, SE-1, Suburban Estates Low Density District, SE-2, Suburban Estates Medium Density District, and R-1 Single Family Dwelling District.
3. The trend of development in the area is towards high density.
4. The request is somewhat consistent with Rock Island County Land Use Plans and maps. The request is moving towards consistency.
5. The LESA score was 178.0.

NOW, THEREFORE, BE IT RESOLVED by the Rock Island County Board that the rezoning from AG-2, General Agricultural District to SE-2 Suburban Estates Medium Density District for the property herein described be and the same is approved.

April 30th 2019

Rock Island County
John C. Massa
County Engineer
851 W. 10th AVE
PO BOX 797 Milan, IL, 61264

Dear Sir:

I would like to request permission to close Loud Thunder Road (from Hwy 92 on the east to Hwy 92 in Illinois City on the west) to thru traffic on Sunday, August 18th, 2019, between the hours of 7:00 AM and 10:00 AM, for the purpose of running the Du-State-Du event, a run/bike/run duathlon. This event is sanctioned by the Cornbelt Running Club and is covered by their insurance rider.

We will hire two Sheriff's deputies to handle traffic control, one on each end of the course. In addition, we will pass out letters to area residents and campers explaining the race is taking place and will appreciate their cooperation in limiting traffic during the race.

The Du-State-Du and for the most part been an annual event. Please let me know if you need any additional information. Thank you for all your help and cooperation last year and in past years in making this event a successful event.

Sincerely,
Claudia Brewer, Du State Du Race Director
